The following is an examiner's statement of reasons for allowance:

The arguments presented by the Applicant in the personal interview conducted on September 24, 2003 are persuasive. The prior art does not teach or suggest the charged particle projection apparatus or associated method where the principal plane of a first magnetic lens unit comprising first and second magnetic lenses is moved in a direction of the optical axis of a charged particle beam by changing the ratio of currents supplied to said first and second magnetic lenses as recited in claims 1, 15, 33, 35, and 41. Claims 3-14, 17-32, 34, and 36-40 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
